SecureCore®

Disaster Planning & Recovery Solutions

SecureCore[®]

Always There. Always On.

SecureCore works with clients nationwide to give them peace of mind when dealing with unforeseen disasters. With our customized disaster plans, smart phone mobile disaster recovery app and on-demand management, you can recover quickly and get back to business as usual.

SecureCore provides many levels of disaster planning and management tools that help businesses with disaster preparedness and recovery should an unfortunate event occur. Our customized, actionable plans are built around each individual business's needs to

provide the most up-to-date, accurate information when and where it's needed most. With the SecureCore app, you stay connected to your plan even when you get disconnected from the Internet.

Emergency disaster plan implementation through SecureCore provides businesses a much-needed safety net when dealing with disasters. Our clients benefit from emergency response tools that mitigate loss, prevent further loss of property, and bring calm to highly stressful situations.

Always here for peace of mind.

CUSTOMIZABLE SOLUTIONS

SecureCore provides customized disaster response plans that take into consideration site-specific building designs and risks. We make disaster planning easy and accessible for businesses by taking care of everything from training to implementation of our on-demand technology solutions.

PROVEN TECHNOLOGY

SecureCore combines disaster preparedness with proven technology to bring disaster planning into the digital age with a smartphone mobile app that provides detailed guidance, with or without an Internet connection.

COMPREHENSIVE TRAINING

SecureCore customers receive exclusive training sessions and benefit from ongoing education in how to prepare for and handle disaster situations.

SecureCore
